This information pertains to one of the JICA Knowledge Co-Creation Programs (Young Leaders) of the Japan International Cooperation Agency (JICA) implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet released the Development Cooperation Charter in June 2023, which stated, *“In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.”* JICA believes that this ‘Knowledge Co-Creation Program’ will serve as a foundation of mutual learning process.

I. Concept

The “Knowledge Co-Creation Program (Young Leaders)” is conducted by JICA (the Japan International Cooperation Agency) under a technical cooperation scheme of the Government of Japan, with the purpose of promoting human resource development in developing countries.

Under the program, young leaders, who will become nation-building leaders in the future, are invited to Japan for about 18 days to be provided with opportunities to:

III. Eligibility and Procedures

1. Nominee Qualifications

Applying Organizations are expected to select nominees who meet the following

qualifications. Please note that nominees would not necessarily be employed by the applying organizations, as long as they are selected officially by the organizations for their specific purposes. However, the nominees must be either persons who are engaged in the said field or directly related to program subject.

(1) Essential Qualifications

All applicants must satisfy the following:

- 1) Nomination: be nominated by the Government of each country in line with the procedures mentioned in 3.(1) below.
- 2) **Experience in the relevant field**: be involved in a field corresponding to the course mentioned in II. Description.
- 3) Age: be **from twenty (20) to thirty-five (35) years of age** and be expected to become leaders in their specialized fields in the future.
- 4) Language Proficiency: have a reasonable command of English and good command of spoken and written **English**.
- 5) Health: must be in **good health** to participate in the program in Japan. To reduce the risk of worsening symptoms associated with respiratory tract infection, please be honest to declare in the Medical History (QUESTIONNAIRE ON MEDICAL STATUS RESTRICTION of the application form) if you have been a patient of following illnesses; Hypertension / Diabetes / Cardiovascular illness / Heart failure / Chronic respiratory illness.
Pregnant applicants are not recommended to apply due to the potential risk of health and life issues of mother and fetus. Because this training includes long bus rides and walking every day, which is both mentally and physically hard on the participants.

(2) Recommended Qualifications

- 1) Experience Visiting/Living in Japan: It's preferable that the applicant has not made any previous visits to Japan
- 2) Educational Background: It's preferable that the applicant holds a Bachelor's degree.
- 3) Gender Equality and Women's Empowerment: **JICA seeks more female applicants** due to the past records of fewer applications from women. JICA is committed to promoting gender equality and women's empowerment, and provides equal opportunities for all applicants regardless of their sexual orientation or gender identity.

2. Required Documents for Application

- (1) **Application Form**: The Application Form is available at **the JICA overseas office (or the Embassy of Japan)**.

* If you have any difficulties/disabilities which require assistance, please specify necessary assistances in the QUESTIONNAIRE ON MEDICAL STATUS RESTRICTION (1-(c)) of the application form. Information will be reviewed and used for reasonable accommodation.

- (2) **Photocopy of Passport:** You should submit it with the Application Form if you possess your passport which you will carry when entering Japan for this program. If not, you are requested to submit its photocopy as soon as you obtain it.

* The following information should be included in the photocopy:

Name, Date of Birth, Nationality, Sex, Passport Number and Expiry Date

(3) **Contact Person at Your Organization for Post-Program Survey about KCCP for Young Leaders**

You will be required to submit 'Contact Person at your Organization for Post-Program Survey about KCCP for Young Leaders' filled with the information about the appropriate person in your organization to whom JICA will send the questionnaire on the monitoring purpose of the program. The person is expected to be your supervisor or the person in your human resources department, who can observe some changes of your attitudes toward your tasks after participating in the program. See 'ANNEX-2' of 'VI. Annex'.

3. Procedures for Application and Selection

JICA Tohoku Center (JICA Tohoku) is located in Sendai, the largest city in the northern Japan. We are blessed with beautiful nature, delicious seafood and abundant tourism resources in rural Japan.

In March 2011, the Tohoku region was devastated by massive earthquakes and tsunamis. We were fortunate to receive overwhelming support from all over the world, and are thankful for the assistance we received. Since the event JICA Tohoku has partnered with local people; taking part in the rebuilding effort in the region through partnerships providing diverse assistance programs. Through this effort, the disaster affected areas collaboratively worked on recovery with developing countries. These joint effort further strengthen the community relationship between Tohoku and other developing countries.

JICA and Capacity Development

Technical cooperation is people-to-people cooperation that supports partner countries in enhancing their comprehensive capacities to address development challenges by their own efforts. Instead of applying Japanese technology per se to partner countries, JICA's technical cooperation provides solutions that best fit their needs by working with people living there. In the process, consideration is given to factors such as their regional characteristics, historical background, and languages. JICA does not limit its technical cooperation to human resources development; it offers multi-tiered assistance that also involves organizational strengthening, policy formulation, and institution building.

Implementation methods of JICA's technical cooperation can be divided into two approaches. One is overseas cooperation by dispatching experts and volunteers in various development sectors to partner countries; the other is domestic cooperation by inviting participants from developing countries to Japan. The latter method is the Knowledge Co-Creation Program, formerly called Training Program, and it is one of the core programs carried out in Japan. By inviting officials from partner countries and with cooperation from domestic partners, the Knowledge Co-Creation Program provides technical knowledge and practical solutions for development issues in participating countries.

The Knowledge Co-Creation Program for Young Leaders is designed for young leaders expected to become future leaders in their specialized fields. Participants in the program learn about Japan's experience and technologies in the relevant fields that will be required for the future development of their own country. A variety of programs is open to young people in each field in each country.

Japanese Development Experience

Japan, as the first non-Western nation to become a developed country, built itself into a country that is free, peaceful, prosperous and democratic while preserving its tradition. Japan will serve as one of the best examples for our partner countries to follow in their own development.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from a process of adoption and adaptation, of course, has been accompanied by countless failures and errors behind the success stories.

Through Japan's progressive adaptation and application of systems, methods and technologies from the West in a way that is suited to its own circumstances, Japan has developed a storehouse of knowledge not found elsewhere from unique systems of organization, administration and personnel management to such social systems as the livelihood improvement approach and governmental organization. It is not easy to apply such experiences to other countries where the circumstances differ, but the experiences can provide ideas and clues useful when devising measures to solve problems.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.
